REPORT GENERATOR

OT POLICY SETUP

Features

- **Ease of Use:** NOVAtime 2000 is a user-friendly program with a Navigator to guide you through all major processes.
- **Company Policies and Rules:** NOVAtime 2000 offers a variety of options to fit a company with several shift, pay and benefit policies.
- **Strategic Reporting:** There are over 100 reports available, which can be customized with different sorts and filters. These can then be saved by user name.
- **Customize:** Has the ability to customize up to eight text fields and 4 date fields for your own use.
- **HR Functions:** Tracks employee attendance, employee tardiness, department transfers, automates employee time and calculates wages with background polling capabilities.
- **Payroll Processing:** You can purchase almost any payroll interface. This allows you to generate your payroll and send it to your payroll service, or import it directly into their software.
- **Spot Trends:** Not only can NOVAtime 2000 show administrators when sick days were taken, it can produce Trend Analysis to show administrators how many days are taken and on which day of the week.
- **Import / Export:** Contains a build-in import/export function that allows users to bring data into the system and export data out to other software packages.
- **Autopoll:** Allows users to set a specific date/time to poll the information from the data collection devices, as well as, run reports, and do backups.

The NOVAtime 2000 Enterprise Solution:

- **NOVAtime 2000 Software** supports up to 150 or an unlimited number of employees.
 - Single user or optional Unlimited Simultaneous Network Users
 - **Data Collection Device:** Terminals, Biometric Hand Readers, PC Keyin, CCD Scanners, Bar Code Wands, Palm Pilots, and more.
 - **Modules:** Accruals, Bell Ringing, IN/OUT Board, On Call/Call Back, Point System, and Badge Printing.
 - **Payroll Interface:** Interfaces to over 100 payroll service providers, and more are constantly being added.
-
